# Notebook A5 / storage.it

Storage.it 4th generation has arrived. Storage.it notebook has been sold over 15 years with the evolution applying the change times since its launch in 2005. The Storage.it notebook is sought after not only in Japan but also Europe, U.S. and Asia because of the convenient slide zipper cover. The transparent zipper pocket is designed to put the needful things such as pen, sticky note, business card, etc.

Received Good Design Award in 2010 and German Design award in 2014.

## Recycled PVC

The Storage.it 4th generation is using recycled PVC. It is a small but big improvement for the brand "Storage.it" and MARK'S Inc. "Recycled PVC" is made from wasted pieces of PVC. There are PVC sheets' fragments, cut pieces during its production. Normally those PVC fragments become nothing but garbage, thrown away. But with "recycle system", PVC trashes were collected and turned into brand-new PVC sheets. It took a long time to complete the products with this new material but finally, we managed to use recycled PVC for the first time. (\*recycled rate 90% ).

## FSC certified paper

To protect forest, earth and our environment, FSC certified paper is used on the notebook.

## Original Paper

Original Paper "Neo Agenda II"  
The original paper exclusively made for MARK'S agenda is first time used on this notebook. Its smooth writing touch and the resistance to bleed-through on agenda is now realized on the notebook as well.

MARK'S INC will keep striving to our technique of production with the corporate policy "Design Our Sustainable future".

# Olimpia Zagnoli

She works as an illustrator for *The New Yorker*, *Fendi*, *Taschen*, *The New York Times*, *Apartamento*...

From the international magazines to limited collection fashionable is a short step – or rather stretch. Unique. The illustrator Olimpia Zagnoli interprets the Italian style with soft shapes and chameleon-like colors, drawing two fancy, curious and irresistible characters, that we could meet at the tram stop, seated in the front row at a fashion show or behind the counter of a bar.

# Nero Oriente

*"A timeless piece, the trusted companion of generation of Italians, reinterpreted with contemporary details"*

Nero Oriente was designed in 1948. It is the notebook that, in Italy, our grandparents and their grandparents used, a milestone in our history and culture. Its original design, now reviewed with a touch of irony, is a mirror of Italian traditional standing as a bridge between East and West that lives in the colors of the collection.

# Bella Copia

*"Bringing the Italian stylish lightheartedness – la Dolce Vita – into our life, every day"*

The Made in Italy concept was born in the 1950s, following the post war period and the economic boom. General taste was fed with fashion, design and creations of all sorts that popularized the idea of Italian fatto bene and mixed it with a Dolce Vita feeling. Like the colored stripes of Pigna's Bella Copia collections, a hymn to an effortlessly stylish and carefree lifestyle dated from 1952.
